

Eimontas Jankauskis (Monty)

Monty has been a member of UniTV since the end of the last academic year. This year he became our treasurer and helped us secure funds to upgrade our equipment and take part in the NASTA Conference. He was also our representative in the Students' Union Media Committee and in the Union's Council where he always argued UniTV's best interest.

Monty has been a hardworking and devoted member of UniTV. He always comes to our weekly exec and general meetings where he constantly comes up with new show ideas and ways to engage new members. He is a great team leader and with his friendly approach manages to make new members return to UniTV. Throughout this year he has proved to be really talented both behind and in front of the camera. He helped out on most of our shoots but he mainly focused on producing our news show, NewsHit where we had the opportunity to interview a member of the European Parliament, a Brighton and Hove Council Leader and a number of students and residents of Brighton. He has worked in all stages of production being in charge of pre-production, camera work, sound, and postproduction. He therefore proved to be not only a skilful cameraman but also a very quick and creative editor. Last term when we were looking for a last minute presenter for our NASTA edit for the show, he agreed to take on the role and managed to create a submission that received great feedback from the judges. Since then he has also hosted two live shows, our annual *Candidate Question Time* and the *Student Unions' Election Results* and has been the lead character of our upcoming short film, *Finitude*. The two live shows that he hosted showed that he not only works well under pressure but is also great at keeping everyone else around him calm in stressful situations.

Monty has always been a trustworthy colleague. He is always the first one to offer his help when anyone needs it, and is a great person to ask for advice. UniTV would have definitely not be the same without him this year and we are very excited to have him back as an executive producer for next academic year.
