

Motion Graphic artists are some of the most underappreciated members of any station and at DemonTV we feel it's time we celebrate the talent that goes into it. Charlie Burt is a staple part of DemonTV, not only was he a brilliant Deputy Station Manager 2017/18 but also key in creating much of the content that DemonTV put out throughout the year. With his incredible editing talent and his undeniably brilliant creativity in terms of motion graphics you'd struggle to find any of our content that has not been made even better by Charlie's involvement. As many of our videos include Charlie's handiwork whether in intros, outros or stand alone graphics.

Not only did Charlie create so much for DemonTV throughout his three years but he has also been key in supporting and nurturing new or current members during his time as Deputy Station Manager. His friendly and supportive nature has always encouraged members to branch out and create new and intriguing content, many of which is either in production or already uploaded, he has helped grow many members' confidence in television production and creation.

Charlie has been an essential part of DemonTV during his time and without his attitude and talent we would not be as productive and happy as we have been. We believe he has been our unsung hero so we hope to honour him with our PCA nomination.
